Tourism potential

- ✓ Complex "Chashma" (pilgrimage tourism) and several more architectural, archaeological monuments
- ✓ Lake Aydarkul (recreational and ecotourism)
- ✓ Sentyab village (mountain tourism)

Land resources

The total area of agricultural land
593629 ha

Pastures
435223 ha

Sowing land
18061 ha

Homestead plots
2622 ha

The woods
3516 ha

Perennial plantations
3423 ha

№	Soil composition	
	Глубина (в см)	0-30
According to chloride salinity	According to the norms (%)	0,01-0,035
	The result of a laboratory study (%)	0,0142
	Salinity level	Lightly salted
According to sulfate salinity	According to the norms (%)	0,08
	The result of a laboratory study (%)	0,064
	Salinity level	Unsalted
Amount of total salts	According to the norms (%)	0,25
	The result of a laboratory study (%)	0,11
	Salinity level	Unsalted
The amount of phosphorus	According to the norms (mg / kg)	60<
	The result of a laboratory study (mg / kg) ¹	70,74
	Quantity in soil	High
Amount of variable potassium	According to the norms (mg / kg)	301-400
	The result of a laboratory study (mg / kg) ¹	658,4
	Quantity in soil	High
The amount of humus	According to the norms (mg / kg)	1,60<
	The result of a laboratory study (mg / kg) ¹	2,54
	Quantity in soil	High
By - pH	According to the norms	8-9
	pH quantity	8,07
	Quantity in soil	Potash

Potential for establishing fish farms

- Lake Aydarkul (103.6 thousand ha, salinity 4.5-18‰)
- The most suitable composition and properties of groundwater
- Fish for the local market (silver carp, carp)
- Fish for the external market (salmon, catfish)
- Artemia cultivation (fish food, pharmaceuticals, cosmetics)

Fish caught - 468.6 tons (2021)

Transport

The length
of roads
is about
500 km

Bus directions:
Nurata - Tashkent
Nurata - Navoi
Nurata - Zarafshan

Distance
to the capital
Tashkent city
450 km

Distance to
the city
of Navoi
68 km

Distance to
Navoi
International
Airport
77km

Available infrastructure

Gas supply - 95.7%

Electrification - 100.0%

Water supply - 61.7%

M³ - 380 soums / \$ 0.035

M³ - 380 soums / \$ 0.035

M³ - 3000 sum / \$ 0.27

Why is it worth investing in the Nurata district of the Navoi region of the Republic of Uzbekistan?

Rich resource base in the construction industry

Human Resources

Land resources

Fish farming

Tourism potential

Available infrastructure

Small industrial zone

Human Resources

Working-age population
46.4
thousand people

Economically active population
36.9
thousand people

Unemployed population
4.7
thousand people

54.0% of the population district is youth up to 30 years old

Unemployment rate
10.2%

Busy population
31.8
Thousand people

Economically inactive population
9.04
thousand people

Rich resource base in the construction industry

Marble - reserves 3779,8 thousand m³

Granite - reserves 4875,4 thousa. m³

Basalt - reserves 2561.2 thousand t.

Bentonite - reserves of 74 thousand t.

Quartz - reserves of 68.2 thousand t.

Feldspar, lime, finishing stones, etc.
